**Our Mission:
Glorify God and
Make Disciples**

Volume 64, Number 10 March 14, 2023 Weekly Newsletter of Tabor City Baptist Church

The discipleship group is meeting each Sunday evening at 6:00 in the Adult 3 classroom. We are now concluding our Bible Survey 101 study. Our last lessons might be of interest to you. This week is the parables, next week the miracles. Next is the Messianic prophecies and the last lesson is literary forms in the Bible. Feel free to stop in and discover more about the Bible. For questions give me a call.

Life Line Screening will be at Tabor City Baptist Church on **Thursday, May 18th.**

4 Preventive Health Screenings for these Diseases:

Carotid Artery Disease:

an ultrasound is performed to screen the carotid arteries (a pair of blood vessels in the neck that deliver blood to your brain) for buildup of fatty plaque. This buildup, called atherosclerosis, is one of the leading causes of stroke.

Peripheral Arterial Disease (PAD):

an Ankle-Brachial Index (ABI) test is performed using blood pressure cuffs on the arms and legs. It is important to screen for PAD because it increases the risk of coronary artery disease, heart attack, or stroke.

Abdominal Aortic Aneurysm (AAA):

an ultrasound is performed to screen the abdominal aorta for the presence of an enlargement or aneurysm. AAA can lead to a ruptured aortic artery, which is a serious medical emergency.

Atrial Fibrillation (AFib):

an electrocardiogram (ECG) is performed by placing sensors on the arms and legs to screen for irregular heartbeat. AFib can lead to blood clots, stroke, and heart failure, and other heart-related complications

4 Screenings for only \$149
